

Retraction notice

**Retraction notice to
"Cost Efficient Process Termination for Deadlock Recovery"
[(2015) IRECOs 10 (7), pp. 695-701]**

Anas Jebreen Atyeeh Husain

In response to a request made by the author of this paper, the paper has been retracted by the Publisher. The explanation provided by the author is that *"the paper includes unintentional errata with respect to certain calculations and experimental results that may have inadvertently lead to false conclusions"*.

To know which further actions are previewed by **Praise Worthy Prize** in case of Retraction, please see the following link:
